¹Full address of first author, including country (Author's address: 10 point, centered)

²Full address of second author, including country

³List all distinct addresses in the same way

(2 lines)

Abstract: The manuscript must be typed single-spaced in one-column to a page on white A4 size papers (210mm×297mm). Authors are requested to submit the final manuscript in English, to a length of maximum 4 pages (for contributed poster presentation) or 10 pages (for plenary, keynote and invited presentations) by October 22, 2009. Please give an abstract at the top of the manuscript. The abstract should clearly state must state briefly and clearly the main object, scope and findings of the work within 250 words. (2 lines)

1. INTRODUCTION

One author of the paper should complete the registration to present one paper. We only allow advanced registration for the presentation in the symposium as well as inclusion of the manuscript in the proceedings.

(1 line)

2. STYLE AND FORMAT

Manuscript must be typed in one column to a page on white A4 size papers (297mm×210mm). Top and bottom margins are 25mm and 20mm, respectively. Both left and right margins are 20mm. We recommend a font of Times New Roman for whole paper. Do not use local fonts such as Chinese, Russian, Japanese, or Korean, etc in the text or the figures. You may insert the characters in the Times New Roman Symbol/Special Characters selection windows. (1 line)

2.1 Section Headings and Page Numbers

The section headings are in boldface capital and lowercase letters. Number section headings in a 10-point bold font with Arabic numerals. Second level headings are typed as part of the succeeding paragraph in an 10-point bold font.

Do not print page numbers: Please number each sheet toward the middle near the bottom (outside the typing area) with a soft pencil.

(1 line)

2.2 Tables and Figures

Tables (refer with: Table 1, Table 2, ...) should be presented as part of the text, but in such a way as to avoid confusion with the text. A descriptive title should be placed above each table. The caption should be self-contained and placed above or beside the table. Units in tables should be given in standard brackets (meV).

Figures (refer with: Fig. 1, Fig. 2, ...) also should be presented as part of the text, leaving enough space so that the caption will not be confused with the text. The caption should be self-contained and placed below or beside the figure. Generally, only original drawings or photographic reproductions are acceptable. All figures and illustrations should be in black and white. Utmost care must be taken to insert the figures in correct alignment with the text. (1 line)

2.3 Equations

Equations (refer with: Eq. 1, Eq. 2, ...) should be located at center of line and numbered sequentially, as (1), (2) and so on, at the right-hand edge of the text. There should be one line of space both above and below the equation.

(1 line)

$$V = 16\pi r^3 / 3$$
 (1 line)

3. LITERATURE REFERENCES

References are cited in the text just by square brackets as [1], [3,4] or [5-7] and are to be numbered in the order in which they are cited in the text and are to be listed at the end of the contribution, see our example below.

(1 line)

4. SUMMARY (OR CONCLUSIONS)

Following the body of the paper, the last section is normally the SUMMARY or CONCLUSIONS.

(1 line)

ACKNOWLEDGMENTS

Brief acknowledgements could be included.
